

PowerLED

Solid State **FESTOON** Lighting

Incorporating High Intensity LEDs

PowerLED building silhouette
Total Power - 50 watts

Long Life - Low Power - High Brightness

Features :

Low Power -

Long Life -

Rugged construction -

High Intensity -

Brilliant colours -

Only **0.6 w per module** eg. 100 module harness uses only 60w !

LEDs have a rated life of over 50,000 Hrs

Polycarbonate inner and outer lens covers & rubber cable

Special *wide viewing angle* high brightness LEDs

Pure bright colours are generated by the LEDs through clear prismatic lens

Specifications :

Light source :

High intensity LEDs

Colour range :

White, Red, Blue, Green, Amber

Rated Voltage :

12 volts DC

Power consumption :

0.6 watt @ 12v

Rated Life :

50,000 + hours

Lens Cover :

Choice of Polycarbonate Prisma Ball (70mm), Turbo (60mm), Star

Harness Length :

50m + 3m lead. LED pitch 0.5m or 1m (other spacings by request)

Power supply :

Switch mode DC in IP65 enclosures.
