

STUDLite

High Intensity LED Lamp

The *STUDLite* is an intrinsically safe lamp. It incorporates the most robust and efficient light sources available - LEDs - in an almost indestructible housing of marine grade '316' stainless steel. Although rugged, the *STUDLite* is extremely attractive with its' low profile, highly polished bevelled front. Originally conceived for marine applications it is equally suited to numerous other outdoor and indoor applications.

Features :

- Ultra long lamp life (100,000 Hours)
- Low Energy
- Shock Resistant (No filaments to break)
- High Corrosion Resistance
- High Impact Resistance
- Vandal Proof
- Low Profile
- Intrinsically Safe – BS EN50020 / 5.4 1995

Some Applications :

- Marine – Oil Rigs, Ships, Yachts , Cruisers
- Bridges
- Walkways
- Stairs - Ceilings - Walls
- Automotive – Trucks, Trailers, Cars, Motorcycles
- Railways
- Escape Route lighting
