

FlexiLED

LED Silhouette Lighting

- Ultra Long Life.....100,000 Hours**
- Low Power..... 2.5w per Metre**
- All Colours...White, Red, Green, Blue, Amber.**
- Low Profile.....6mm x 12mm**

The *FlexiLED* system incorporates LEDs in a clear, flexible, low profile PVC extrusion which can be simply cut to length as required.

LEDs are light sources of the future. They are the most efficient emitters of light that exist, combining High Light Output, Very Low Power Consumption & Ultra Long Life. The high intensity 'white' LED, which has been a lighting manufacturer's 'holy grail' for decades, is now a reality.
