

✧ Ecoflex ✧ LED ✧

✧ Solid State Silhouette Lighting ✧

Incorporating LEDs - The world's most efficient Light Source

✧ **Low Power** - 1/2 watt per lamp

✧ **Low Running Cost** - 30m (100ft) costs less than **1/2p per hour** to run!

✧ **Low Maintenance** - Ultra Long Life - 50,000 Hours

LEDs are the light sources of the future. They are the most efficient emitters of light that exist, combining **High Light Output**, **Very Low Power Consumption** & **Ultra Long Life**. The *Ecoflex* - LED system utilises the best white LED source, uniquely packaged to give optimum viewing angle.

Specifications :

Light source :	High brightness White LED with large viewing angle .
Power consumption :	0.5 watts per Lamp
Rated Life :	50,000 hours +
Rated Voltage :	12 volts dc (nominal)
Power supply :	Electronic Power Supply.
Mains Voltage Requirement :	240v ac 50 or 60 Hz
Trunking :	PVC 16 x 40 mm White or Black
Lens :	Clear Prismatic (Star effect) or Plain (see pictures)
