

ARMOURLite

High Impact - Solid State Security Lamp

The *ARMOURLite* is an intrinsically safe lamp. It incorporates the most robust and efficient light sources available - LEDs - in an almost indestructible housing of marine grade '316' stainless steel with an armoured glass lens. Although rugged, the *ARMOURLite* is extremely attractive with its' low profile, highly polished bevelled front. Originally conceived for marine applications it is equally suited to numerous other outdoor and indoor applications.

Features :

- Very High Impact Resistance
- Ultra long lamp life (100,000 Hours)
- Low Energy
- Shock Resistant (No filaments to break)
- High Corrosion Resistance
- Vandal Proof
- Low Profile
- Intrinsically Safe – BS EN50020 / 5.4 1995

Some Applications :

- Marine – Oil Rigs, Ships, Yachts , Cruisers
- Bridges
- Walkways
- Stairs - Ceilings - Walls
- Automotive – Trucks, Trailers, Cars, Motorcycles
- Railways
- Escape Route lighting

Specifications:

Light source.....40 x High intensity LEDs
Light Output.....240 Candelas
Lamp life..... 100,000 hours
Colours.....White, Red, Green, Blue, Yellow
Voltage.....12v ac/dc (Other voltages available on request)
Wattage.....2 Watts
Housing.....Stainless Steel
Bevelled Cover.....Stainless Steel
Lens.....Armoured Glass
Overall Dimensions.....150mm diameter x 45mm

Cross Sectional View.
